

# CONTEMPORARY SERVICES CORPORATION

THE LEADER IN CROWD MANAGEMENT®

AMBASSADOR SERVICES

Contemporary Services Corporation (CSC) is the leader in crowd management and event security for the entertainment and sporting event industries. Established in 1967, CSC operates more than 50 branch offices serving over 200 cities within the United States. CSC's presence in the event security industry remains unmatched, and hundreds of clients continually rely on CSC for its performance, experience and expertise in ensuring the safety of the nation's largest events.

CSC's University Ambassador Program was established in 2009 and continues to be an effective solution for University security needs. The Program is designed to work in conjunction with campus and local law enforcement in order to add an extra layer of security throughout the University campus and the surrounding community. CSC's highly trained security guards are strategically placed in order to patrol the campus, to serve as an informational point for students and guests, to observe and report any suspicious activity, and to provide access control services among the campus perimeter and other key locations.

CSC provides the following Ambassador Program services:

- Security
- Bicycle Patrol
- Guest Services
- Access Control

University of Southern California (USC) has been utilizing CSC's Ambassador Program services since 2009 throughout its campus and surrounding housing areas. This partnership with USC continues to thrive and expand due in large part to the overwhelmingly positive response from USC's students and community.

*"CSC's continued work in the University of Southern California Ambassador Program and the University's Perimeter Access Program have resulted in a more secure and safer environment for students, staff and guests in and around the University Community and campus. Their efforts working together with USC's Department of Public Safety Officers and LAPD have added an additional layer of safety and security. The efforts by CSC's dedicated and friendly staff, working long and late night hours are truly appreciated by our students, their parents, staff and me."*

*- John Thomas, Chief of Public Safety  
University of Southern California*
