

CAMPUS SAFETY SERVICES

CONTEMPORARY SERVICES CORPORATION

Contemporary Services Corporation (CSC) was founded in 1967 as a peer-group security company, the first of its kind. Throughout the last 46 years, CSC has maintained the peer-group concept while evolving into a full-service crowd management and event security firm. In addition to the Campus Safety Services Program, CSC also offers an Ambassador Services Program for university clients. University of Southern California (USC) was the first campus to utilize CSC's Ambassador Services Program, which continues to thrive and expand to other universities and cities.

CSC operates more than 50 branch locations and maintains an outstanding level of clientele, including over 100 universities, more than 100 stadiums and arenas, over 20 convention centers, and numerous clients within the professional ranks of MLB, MLS, NBA, NFL, NHL, and NASCAR. CSC has also provided services for the world's most prestigious special events, including Collegiate Bowl Games, NCAA Final Four Tournaments, US Open Tennis, 30 Super Bowls, 8 Olympic Games, 4 Presidential Inaugurations, 2 Papal visits, and 2 FIFA World Cups.

"CSC's continued work in the University of Southern California Ambassador Program and the University's Perimeter Access Program have resulted in a more secure and safer environment for students, staff and guests in and around the University Community and campus. Their efforts working together with USC's Department of Public Safety Officers and LAPD have added an additional layer of safety and security. The efforts by CSC's dedicated and friendly staff, working long and late night hours are truly appreciated by our students, their parents, staff and me."

*– John Thomas, Chief of Public Safety
University of Southern California*

APEX Security Group (APEX), a subsidiary of Contemporary Services Corporation, is a recognized leader in enhancing existing security and crowd management operations through the utilization of specially trained law enforcement professionals. The unique understanding and appreciation for this type of service comes from the institutional value of the APEX leadership team, who have combined their law enforcement credentials and experience in order to provide an unparalleled level of performance and expertise.

APEX personnel consists of armed, off-duty law enforcement officers who will provide supplemental services for clients that require support above and beyond CSC's security and crowd management services. APEX officers will be individually selected based on the unique requirements of each campus and will work in conjunction with CSC and campus administrators to provide an individualized security plan. Security presence on campus is based on each client's requirements and will be as visible as necessary or as unobtrusive as necessary.

www.apexsgj.com

CSC's Campus Safety Services Program, in partnership with APEX, will provide schools with a level of security that is unobtrusive and a better alternative than having a uniformed police presence on campus. CSC and APEX are also far superior to typical security guard companies, who focus more on the protection of property rather than the protection of people. CSC was founded on the notion of "peer group" security, and that unique foundation will be reinforced in the specific approach used for campus services.

Our security team will not only provide a security service; they will become a part of your campus community. Each day will be treated differently, and every person entering your campus will be treated as a guest. Daily reports will be given to administrators including, but not limited to, safety recommendations, repairs needed throughout the campus, notes regarding problematic students, and notes regarding any individuals attempting to access areas without authorization.

Campus security plans will be specifically tailored for each campus and developed in conjunction with school administration officials.

General services include:

- Comprehensive security assessment report based on the physical design of the campus
- Student drop-off/pick-up traffic flow plans
- Extracurricular event security staffing plans
- Campus shelter in place plans
- Campus emergency evacuation plans
- Plans for controlled student pick-up in case of unusual campus occurrence

Training

All CSC and APEX officers will be highly specialized and required to undergo an extensive campus safety training program. Each security officer will be carefully selected and placed based on his or her unique abilities and potential contributions to your campus.

Campus Involvement

CSC and APEX officers will strive to become a part of your campus community through interaction with student organizations, athletics, and other types of involvement. Focus groups will also be implemented in order to build a strong rapport with student body leadership.

Event Security

CSC and APEX have the ability to provide supplemental security for your campus events, including athletics, graduations, and social gatherings.
